DOSAGE

Application trials have shown the addition of Borchers® Deca 27 to be between 4 and 6%, calculated on the solid resin and depending on the resin and pigments used in the formulation. If using highly adsorbent pigments with a high specific surface, it may be necessary to also use Octa-Soligen® Calcium 10, basic (see technical information on Octa-Soligen® Calcium 10, basic).

STORAGE

Protect from the effects of weathering and store at temperatures below 50° C. Once opened, containers should be resealed immediately after each removal of the product.

SAFETY

Please refer to our safety data sheet for information relating to product safety.
